

Made in U.S.A.

# Ultra 500 FLEET Enclosure System

**TURN-KEY** Each enclosure comes pre-assembled, pre-wire, pre-plumbed and tested for easy installation

**SMALL FOOTPRINT** The enclosure base is only 48" long by 36" wide so it can be used even where space is limited.

**AESTHETICALLY PLEASING** The white powder coated exterior looks great at any facility.

**WEATHER-RESISTANT** High quality powder coating helps protect against the elements to ensure the enclosure looks great for years.

**FLEET DISPENSER** Choose from APEX or REGAL fleet dispensers depending on your facility setup. Integrates with most fuel management systems (FMS).

## TANK SPECIFICATIONS

- 500 (528 Brimful) Gallon Fueling Island-Friendly Tank
- High Performance Composite Housing Panels
- HDLPE Primary Tank
- Submersible Pump
- Primary & Secondary Tank Vent
- Local Digital Readout Tank Gauge
- Mechanical Overfill Protection
