Terms & Conditions

PAYMENT TERMS:

PAYMENT IS DUE IN ADVANCE. Any other payment terms are subject to credit approval. Authorized purchase orders required for: Leases, Hospitals, Military, School Systems, Municipalities and Corporate Facilities. Proof of tax-exempt status required if applicable. Estimated sales tax - final tax will be billed at the time of shipment based on the prevailing rates.

ESTIMATED DELIVERY DATE:

Due to fluctuating supply chains, please check with your Regional Sales Manager to confirm a realistic lead time for your order.

DISCLAIMER:

No representation or statements and no warranties, expressed or implied, other than Manufacturers Warranty, arises apart from this quote concerning the above items except as stated in writing on this quote. All quotes are valid for 30 days.

TERMS AND CONDITIONS OF SALE:

Customer is responsible for the following on Entertainment, Cardio & Strength products: TV's with fixed or variable analog audio output jack and speaker off functions (if digital audio output, a converter will need to be purchased). Live cable and dedicated electrical to each TV/Personal Viewing Screen location prior to installation. Installation is not included unless specified. XTV receivers require a C-Safe port for power or 110 VAC outlet per piece Confirmation of treadmill electrical requirements (dedicated 20amp branch circuit to each treadmill).

GC or Owner is responsible for the following: • Dumpster for all garbage. • HVAC system up and running prior and during installation with a room temperature of 70 degrees. • Moisture Test done on concrete slab. RH Test; must be at or below 85% RH or Stauf adhesive must be used • Levelness of concrete slab checked for high/low spots, control joints, expansion joints, no paint overspray on concrete slab, etc. • Any major prep work:(grinding, self-leveling, etc.) • All original lighting on during installation of rubber floor. No temporary lighting. • All Doors and electrical outlets that are in the ground need to be removed prior to removal of old flooring and placed back once the new floor is installed; Any doors that swing into room or electrical outlets that are recessed must be properly installed to account for flooring thickness • GC or Owner is responsible for protecting and washing the new installed sports rubber flooring.

One year installation Warranty.

Please note: Unless product is defective or the return is a direct result of a Direct Fitness Solutions error, a 10% restocking fee for all orders and a 20% restocking fee on all custom orders will be charged. All shipping and installation costs are nonrefundable.

Quote Acceptance:

These prices, specifications and conditions are satisfactory and are hereby accepted.

FREEMOTION
Powered by iFIT >

i22.9 INCLINE TRAINER

PRODUCT FEATURES

BURN CALORIES FASTER

With up to 30° incline and -3° decline, build more muscles and burn calories quicker with less perceived exertion. Walking at 30° incline burns 3.6 times more calories than walking at 0°.

1-STEP™ CONTROLS

The ideal treadmill for a HIIT workouts or functional training, with 1-STEP™ Controls you can quickly adjust speed, incline and decline with convenient console controls.

HD TOUCHSCREEN WITH BUILT-IN TV TUNER

Get immersed in visually stunning workouts filmed in exotic locations around the globe, or watch a favorite TV program on this high definition 22 in (55 cm) touchscreen display.

LIMITLESS TRAINING OPTIONS

Access thousands of on-demand workouts led by expert fitness instructors from around the world. With more than five crew filming training content in-studio and on all seven continents, workout boredom is a thing of the past.

TRAIN WITH WORLD-RENOWNED FITNESS COACHES

With a diverse and comprehensive selection of more than 100 top trainers, professional and Olympic athletes, your members can easily find coaches that fit their interests and personality.

EDUCATIONAL RUNS

An iFit Global Workout goes beyond interactive – it is an engaging and educational training experience. In addition to world-class workouts filmed in the most exciting places on earth, iFit trainers share facts, information, and history of the region to keep the workout informative and engaging.

RUNNING WITHOUT LIMITS

Google Maps™ powered by iFit allows users to run or walk anywhere in the world. Map a route, and iFit will adjust the machine's incline or decline to match the on-screen terrain.

AUTO-ADJUSTING

The interactive training experience allows iFit trainers to remotely adjust the incline, decline, and speed of the treadmill to mirror the on-screen content, creating an immersive and engaging workout experience.

DON'T SWEAT IT... TOO MUCH!

Stay cool throughout the workout with a conveniently located adjustable 3-speed fan, or select the AutoBreeze™ feature to enjoy a variable flow that responds to the running pace.

FREEMOTION
Powered by iFIT >

t22.9 REFLEX™ TREADMILL

PRODUCT FEATURES

A SAFER, HEALTHIER RUNNING EXPERIENCE

Easier on hips, knees, and ankles, the REFLEX™ proprietary cushioning deck absorbs shock to help users run longer and stronger. Providing a 52% greater reduction in tibial shock compared to flat surface running, the REFLEX Deck is the longevity solution for walking or running.

LIMITLESS TRAINING OPTIONS

Access thousands of on-demand workouts led by expert fitness instructors from around the world. With more than five crews filming training content in-studio and on all seven continents, workout boredom is a thing of the past.

HD INTERACTIVE TOUCH DISPLAY WITH BUILT-IN TV TUNER

This high definition 22-in (56 cm) touch display adds tech luxury to the machine. It's where the workout comes to life, with readouts and customized workouts that never lose sight of personal fitness goals. Alternatively, watch your favorite TV program.

INTERACTIVE AND ENGAGING WORKOUT EXPERIENCE

A near-endless library of iFit coaching sessions led by more than 100 top trainers who motivate and inspire users to continually push themselves. With Google Maps™ users may also create an endless supply of real-time, interactive routes.

AUTO-ADJUSTING

The interactive training experience leads users up 15% inclines as the program automatically controls the treadmill's incline and speed, giving an immersive, engaging experience.

1-STEP™ CONTROLS

Get instant response and immediate action with easy-to-understand, 1-STEP™ Controls. The easy read and accessible controls are made for personal trainers and HIIT workout classes.

PRECISION QUICK SPEED

In-between speeds are achieved by pressing the 1-STEP™ Controls back-to-back. For instance, pressing '2' then '5' will take you to 2.5 mph (4 km/h) instead of repeatedly tapping the SPEED button. In the training details like Precision Quick Speed that give you the workout advantage.

HEART RATE MONITORING

Get real-time data during the workout with built-in EKG grips. Results let members know when they're in the ideal heart-healthy zone. Also compatible with Ant+ and Polar.

STAY CONNECTED

Connect your bluetooth headphones or use the 3.5 mm audio out to follow the iFit trainer. Charge your device using the USB port.

SPECIFICATIONS

Display Type	22 in (56 cm) HD Capacitive Touchscreen Built-in TV Tuner* (Available Soon)
Workouts	Thousands of Coach-Led, Unlimited with Google Maps
Featured Languages	EN, also DE, ES, FR, IT, PT, RU, ZH
Entertainment	HDMI, MPEG-2, MPEG-4 US & Canada: H.264 (AVC) International: H.265 (HEVC)
Audio Connections	Bluetooth, 3.5 mm headphone jack
Connectivity	Ethernet or Wifi minimum: 10 Mbps per unit (Dedicated Ethernet recommended)
Elevation System	0% to +15% incline
Speed Range	0-15 mph (0-24 km/h)
Drive Motor	AC 5.0 CHP Commercial
Deck	Two-Sided REFLEX™ Deck
Running Surface/Belt	Double-Layered Quiet Belt 21.5 x 60 in (54.6 x 152 cm)
AutoBreeze™ Fan	Adjustable, 3-Speed, 8-in (20.3 cm) CrossFlow™ Fan
Heart Rate Monitoring	EKG Pulse Sensors, ANT+ and Polar Compatible
Accessories Holder(s)	Phone/Accessories Tray, Bottle Holder
Step-Up Height	12 in (30.5 cm)
Maximum User Weight	400 lbs (181 kg)
Product Weight	619 lbs (280.7 kg)
Product Dimensions (L x W x H)	87.7 x 34 x 86 in (222.8 x 86.3 x 167.6 cm)
Shipping Weight	649 lbs (294.4 kg)
Shipping Dimensions (L x W x H)	89 x 41 x 30 in (226 x 104 x 76 cm)
Certifications	eTUVus, FCC/IC, BOB
	*NTSC, PAL, SECAM, etc.

PRODUCT OPTIONS	Units	Metric	Imperial
	Power	120 VAC, 20 Amp	240 VAC, 15 Amp
	Color	Black	White Red Yellow

e22.9 ELLIPTICAL

PRODUCT FEATURES

LOW IMPACT TOTAL-BODY TRAINING

Give your members a total-body, joint-friendly exercise with the smooth-flowing motions of this redesigned cardio machine.

THOUSANDS OF COACH-LED WORKOUTS

Give your members access to an expansive library of on-demand workouts led by expert fitness coaches from around the world. Users can search or sort by location, trainer, exercise type, workout duration, intensity, and more.

WORLD-RENOWNED FITNESS COACHES

With a hand-selected compilation of more than 100 Olympic champions, celebrity trainers, physical therapists, marathoners, expert cyclists, and location guides leading workouts, your members will quickly discover their new favorite trainer.

GLOBAL WORKOUTS (40+ COUNTRIES, 7 CONTINENTS)

Empower members to explore the world without leaving the room with thousands of inspiring training videos beautifully filmed in stunning locations around the globe, including 40+ countries and all 7 continents.

HIGH-ENERGY STUDIO CLASSES

Expand your timetable and offer your members the type of participant-filled high-intensity studio class, when it's most convenient for them.

GOOGLE MAPS™

Take a run or walk anywhere in the world with Google Maps, powered by iFit. Your members can map a route, and iFit will take them there.

AUTO-ADJUSTING TECHNOLOGY

Each interactive workout allows the on-screen coach to remotely adjust the resistance of the machine to mirror the on-screen content, creating an immersive and engaging training experience.

HIGH-DEFINITION DISPLAY

An immersive, high-definition 22-in (55 cm) capacitive touchscreen delivers stunning imagery that transports the user to exotic locations around the globe.

SPECIFICATIONS

Display Type	22 in (55 cm) HD Capacitive Touchscreen Built-in TV Tuner* (Available Soon)
Workouts	Thousands of Coach-Led Unlimited with Google Maps
Featured Languages	EN, also DE, ES, FR, IT, PT, RU, ZH
Entertainment	HDMI, MPEG-2, MPEG-4, US & Canada: H.264 (AVC) International: H.265 (HEVC)
Audio Connections	Bluetooth, 3.5 mm headphone jack
Connectivity	Ethernet or Wifi (minimum 10 Mbps per unit) (Dedicated Ethernet recommended)
Drive System	Quiet Belt, Hutchinson J10 Space-efficient rear drive
Resistance System	SMR™ Silent Magnetic Resistance
Resistance Levels	1-24 Levels
Step-Up Height	35 in (24.1 cm)
Pedals	Non-Skid Traction Control Pedals
Stride Length	20 in (50.8 cm)
Heart Rate Monitoring	EKG Pulse Sensors, ANT+ and Polar Compatible
Accessories Holder(s)	Phone/Accessories Tray, Bottle Holder
Transport Wheels	2 in (5 cm) Plastic
Supported Power	120 VAC, 2 Amp 240 VAC, 1 Amp
Maximum User Weight	400 lbs (182 kg)
Product Weight	279.4 lbs (126.7 kg)
Product Dimensions (L x W x H)	87.3 x 28.5 x 71 in (221.8 x 72.3 x 180.3 cm)
Shipping Weight	309.4 lbs (140.3 kg)
Shipping Dimensions (L x W x H)	91.3 x 26.2 x 33.1 in (232 x 66.5 x 84 cm)
Certifications	CE, FCC/C, RoHS
	NTSC, PAL, SECAM, etc.

FREEMOTION

Powered by iFIT >

COACHBIKE™

PRODUCT FEATURES

INTERACTIVE AND ENGAGING WORKOUT EXPERIENCE

A stunning 22 in (55 cm) high-definition capacitive touchscreen delivers a near-endless library of iFit coaching sessions led by more than 100 top trainers who motivate and inspire riders to continually push themselves. With Google Maps™, users may also create an endless supply of real-time, interactive routes.

AUTO-ADJUSTING

The interactive training experience leads users up 20° inclines and down 10° declines as the program automatically controls the bike's resistance, incline, and decline.

IMMERSIVE RIDE

With versatile handlebars, dual-sided pedals (SPD and toe strap), and an ergonomic resistance-shifting system that auto-adjusts to virtual terrain changes, the CoachBike delivers a personalized and immersive riding experience.

AUTOBREEZE™ WORKOUT FAN

Riders stay cool throughout their workout with a conveniently-located 3-speed fan or select the AutoBreeze™ feature to enjoy a variable flow that responds to their cycling pace.

PERSONAL FIT

The simple adjustment knobs quickly provide many different saddle and handlebar combinations to fit every body type, ensuring each user receives a personal riding experience.

GATES CARBON DRIVE™ SYSTEM

The maintenance-free carbon drive system delivers the same quiet, smooth ride that a v-belt drive provides, with the strength and efficiency of a chain.

EASE OF MAINTENANCE

One of the most maintenance-friendly bikes on the market, the SMR™ Silent Magnetic Resistance system, carbon belt, rust-resistant aluminum frame, and hidden stainless steel hardware make it easy to clean and maintain without the need for replacement parts.

NUSTEP T5 RECUMBENT CROSS TRAINERS

ACCESSIBLE - ADAPTIVE - EFFECTIVE

The NuStep T5 recumbent cross trainer's accessible design and adjustable, ergonomic features empower users of virtually any fitness level or functional ability to achieve an effective total-body workout while in a secure seated position. With a low inertia start-up, user controlled step length and 15 resistance levels, the T5 allows users to control their workout and adapt it as they improve and progress.

Comfortable seat swivels 360° and supports users up to 500 lbs (227 kg)

Large color LCD display with 8 workout programs

Sturdy grab ring for support and stability

Easy arm adjustments

Contact heart rate handles

Low step-through design

PRODUCT CUSTOMIZATION

We know what it takes to build an authentic, meaningful brand experience. Our customization program is the perfect way to leverage your personal brand and make a strong first impression. Get Nautilus Benches & Racks in a variety of custom frame color and upholstery options.

GUIDED STRETCHING

The Nautilus Stretch Bench placard provides step by step body position and hand placement, making it a user friendly and engaging way to warmup for or cool down from any workout.

POWER REQUIREMENTS INCLINE TRAINER AND REFLEX™ TREADMILL

WARNING: Failure to follow may cause unexpected behavior of the treadmill or other machine malfunctions.

110-Volt Treadmill Applications

Voltage range: 100-120 VAC, 60 Hz | Freemotion treadmills require an individual branch circuit using a NEMA 5-20R isolated ground (pictured), or similar receptacle. The hot, neutral, and ground wires must each be independently isolated (not looped or tied to other circuits).

220-Volt Treadmill Applications

Voltage range: 200-240 VAC, 50/60 Hz | Freemotion treadmills require an individual branch circuit using an CEE 7 (pictured), NEMA 6-20R, or similar receptacle. Two hot and the one ground wires must be independently isolated (not looped or tied to other circuits).

Do not modify the plug provided with this product as it will void the warranty and may damage the product. If it will not fit your electrical outlet, have a qualified electrician install the appropriate outlet in your facility.

ELECTRICAL APPLICATIONS

Electrical supply may fluctuate in your area. To ensure the product's stable performance, we require the following wiring gauges based on the distance between the single treadmill and the panel.

DISTANCE	WIRE SIZE
100-150 ft 30-45 m	10 Gauge 6 mm ²
150-200 ft 45-60 m	8 Gauge 10 mm ²
More than 200 ft 60 m	6 Gauge 16 mm ²

When designing a facility or installing new Freemotion equipment into a facility, it is important to have the correct electrical power provisions for the equipment to operate safely and correctly. Each treadmill must be furnished with an Individual Branch Circuit. Circuits for 110-Volt models must include a 20-amp circuit breaker and individual 20-amp isolated ground receptacles for each treadmill. Circuits for 220-Volt must include a 15-amp circuit breaker and individual 15-amp isolated ground receptacles for each treadmill. The US-based NEC requires that each outlet has dedicated conductors of at least 12 AWG (American Wire Gauge) for line, neutral, and ground for 20-amp service. Larger conductors (10 AWG) may be required for long branch circuits or high temperatures to prevent voltage drop. Dedicated outlets must not share a line, neutral, or ground conductors with other outlets. This means that a single breaker, one hot wire, one neutral wire, and one ground wire are connected from the panel to a single electrical load, in this case, one treadmill.

ALL CIRCUITS FOR TREADMILLS SHOULD NOT SHARE A NEUTRAL GROUND Each neutral wire and each ground wire should be tied back to the panel directly. This should help to avoid three problems commonly experienced:

- 1. Overloading the Circuit Breaker** – With only one treadmill connected to a single circuit breaker in the electrical panel, the smaller circuit breaker in the treadmill will trip first if there is an over-current situation due to abnormal treadmill operation. If more than one treadmill is wired to the same panel breaker, the additional current requirements may frequently overload and trip the panel breaker, even though the treadmills are operating normally.
- 2. Overloading the Neutral Wire** – If there are multiple treadmills connected to the same neutral wire, even if each hot conductor is wired to separate breakers, there is a risk of overloading the neutral wire, possibly resulting in a dangerous situation (could overheat and cause a fire) and/or more commonly, low voltage at the outlet. As a result of the low voltage the amperage (AMPS) goes up to keep up with the current demand. With the high amounts of current comes high heat, which will damage the electrical components such as the power board, console, and other small components within the treadmill.
- 3. Low Voltage at the Outlet** – A few things can cause this, the most common is too many treadmills on one circuit (or neutral wire), which overloads and heats the wire, causing the voltage at the outlet to drop. This also happens if the wire size is too small or the distance from the panel to the outlet is too far. Low voltage at the outlet can only be measured when the load is at its peak. The voltage may be sufficient when all the treads are off but lower significantly when they are all operating and drawing 20-amps. Low voltage causes problems for the drive motor, power board, and motor controller, resulting in unexpected behaviors of the treadmill.

The benefits of an Isolated Ground (IG) – The primary reason for using an IG is to provide a noise-free (electromagnetic interference) ground return, separate from the equipment grounding return. The IG provides an isolated, separate ground path for the ground reference in the treadmill. The IG also helps eliminate the potential for a "ground loop," which can cause electromagnetic interference.

NOTE: DO NOT share TV Power Supplies with Treadmill 20A Circuits. Failure to follow these requirements may cause unexpected behavior of the treadmill or other machine malfunctions. We recommend that you meet with a qualified electrician to meet your individual needs best.

Each Core Health & Fitness product will carry its own limited warranty as set forth on the Official Core Health & Fitness website. Such warranty will be buyer's sole and exclusive remedy for any breach of warranty. Core Health & Fitness disclaims all other warranties expressed or implied or statutory, including any warranty of merchantability, any warranty of fitness for a particular purpose and any implied warranties arising from a course of dealing or usage of trade. This warranty supersedes all other warranties, including any warranties based on oral representations. This warranty extends only to the original end user customer and is not transferable. This warranty does not cover defects caused by negligence, improper maintenance, improper storage, misuse; installation not in accordance with Core Health & Fitness' printed instructions; abuse; normal wear and tear, contact with liquids; application other than intended use; or installation of unapproved third party products. Core Health & Fitness' sole liability under this or any other warranty expressed or implied is limited to repair or replacement or refund as determined solely by Core Health & Fitness. Repair, replacement or refund as determined solely by Core Health and Fitness will be the sole and exclusive remedies for breach of warranty or any other legal theory including theories for the recovery of consequential or incidental damages. Some states do not allow the exclusion or limitation of incidental and consequential damages, so the above limitation may not apply.

GROUP CYCLING					
GROUP CYCLE BIKES	Limited 10 year warranty on structural frame not including coatings, all other components and accessories** purchased with a bike order are warranted for 2 years parts and 1 year labor 10 year warranty on belts	Limited 10 year warranty on structural frame not including coatings, all other components and accessories** purchased with a bike order are warranted for 3 years parts and 3 years labor 10 year warranty on belts	Limited 10 year warranty on structural frame not including coatings, all other components and accessories** purchased with a bike order are warranted for 10 years parts and 3 years labor 10 year warranty on belts	Limited 10 year warranty on structural frame not including coatings, all other components and accessories** purchased with a bike order are warranted for 2 years parts and 2 years labor 10 year warranty on belts	Limited 10 year warranty on structural frame not including coatings, all other components warranted for 2 years parts 10 year warranty on belts

*Wear items include treadmill belts and decks. **Accessories include consoles, pedals, and custom additions. *Light Commercial use is defined as non-dues paying facilities with < 8 hours/day usage 23-00528

MAINTENANCE

PREVENTATIVE MAINTENANCE POLICY

Preventative Maintenance is vital to ensuring the life and quality of your fitness equipment. By routinely checking and cleaning your equipment, you can help prevent major machine failures that can potentially lead to injury. This greatly reduces liability, and builds confidence in your product among current and future members.

Our Preventative Maintenance program consists of a complete check-up on all your fitness equipment. Each machine is run through a series of electronic, motor, and wear item diagnostic checks by one of our factory trained technicians. All serial numbers, mileage, hours, and other machine statistics are recorded. Any items or parts showing signs of failure or wear, are also recorded. This information is kept on file by The Fitness Connection, and is an important role in properly maintaining your equipment.

In addition to these diagnostic checks, each machine is completely cleaned during our maintenance visits. This is extremely important, as the build up of dirt or dust near the electronic and motor components can lead to part failures, or ultimately be a hazard to the user, or their environment.

Manufacturer's recommend that preventative maintenance is performed on a quarterly basis. However, because this is largely dependant on the amount of usage your facility receives, our maintenance agreements allow the customer to customize the length and terms of each contract.

PM CHECKLIST

PREVENTATIVE MAINTENANCE

What does preventative maintenance actually entail? Below is a basic guide that outlines what the process includes for both Cardio and Strength equipment.

	CARDIO	STRENGTH
Check for safety & proper function	✓	✓
Test all mechanical parts	✓	✓
Test all electronical parts	✓	
Test all adjustment points	✓	✓
Apply wax/lubrication	✓	
Record machine statistics	✓	
Adjust/tighten all hardware	✓	✓
Test cables, pins, belts.levers		✓
Lubricate pivot points		✓
Inspect upholstery		✓
Vacuum in and around unit	✓	
Clean exterior	✓
