2022 Village of Romeoville Landscape Partnership

Dear Mike Braasch,

Thank you so much for Our valued relationship taking care of and Managing the Turf for the various locations within the Village of Romeoville.

Obviously, the Market these days is an ever changing thing. We've seen inflation and Price increases like most Companies with increasing fuel costs, Labor costs, and Materials just to name a few. Current Market Pricing is in the \$145 - \$160 per acre range.

As we spoke previously, we're willing to enter 3-year agreement with you and keep the pricing the same as it is today for the 2022, 2023, & 2024 seasons.

The pricing includes general Costs for Fertilizer & Weed Control Services in the \$89 - \$95 per Acre Range. Specialty Services like Insect control, Aeration, Disease treatments would be priced separately like always.

TruGreen has been in business for over 40 years. Considered the Industry leader, we take pride in the work we do. We service many of the Nations important landmarks and turf areas.

It is Our Pleasure to continue to Provide services to The Village of Romeoville.

We Value your Continued Business!!

Best Regards,

Tony Ingala

---
