

Village of Romeoville

Request for Village Board Action

Date: May 31, 2019

Description/Title:

A Resolution Authoring a Contract with INAP Disaster Recovery Storage

Workshop **Regular** X

Summary:

A Request for Proposal was completed for a new backup solution for the Village's data which was previously approved the Board. This is the formal contract for the cloud and off site storage. The costs are still within the original overall cost previously approved by the Board. This is just the formal approval of the agreement.

The cost for INAP is \$55 per TB per month. We are estimating 16TB. The original agreement will be for 3 years. All data will be stored in a private cloud and also at an off site data center. Data is accessible 24 X 7 X 365. The site complies with all HIPPA requirements.

Recommendation / Comments by Other Boards or Commissions:
